Show HN: Omnara – Open-source alternative to Claude Managed Agents

HackerNews +1 source 100% HN 112

Hey all, Kartik from Omnara (https://omnara.com) here. We're building an open-source API for running durable agents. You create an agent with an API call, and Omnara runs the agent loop, gives the agent sandboxes to run commands in, and handles secrets, permissions, and RBAC....

OpenAI now trains its frontier AI models with no internet access

The Verge AI +1 source 80%

OpenAI is now training its most advanced AI models without internet access following a string of rogue hacking incidents. In a blog post on Friday, OpenAI says it built an offline testing environment where AI models can interact with indexed and cached web content "without risk...

Show HN: Amgi – Plain-text spaced repetition with FSRS

HackerNews 50% HN 2

Hi HN! I love Anki and I've been using it for 5–6 months pretty much consistently. It's a wonderful piece of software, but its obvious downside is its UI. I love beautiful things, and spending 30–40 minutes daily on something that doesn't bring me aesthetic joy is kinda urgh.....

Microsoft’s Mustafa Suleyman says its AI outperforms doctors on hard cases as he chases ‘medical superintelligence’

TechCrunch AI 50%

Microsoft’s new AI diagnostic system beat generalist doctors on hard cases, according to a study in Science. But most of the improvement seems to come from the AI models underneath, not from Microsoft’s system itself.

Designing an AI serving harness built to last

MIT Tech Review 50%

The next competitive advantage in enterprise AI has less to do with which model you choose than with what you build around it. That’s an important shift. For the past several years, much of the AI conversation has centered on model capability: bigger models, better reasoning,...

Jack Dorsey’s Block made an AI model that talks to you like an awkward new friend

The Verge AI 50%

Jack Dorsey's Block announced an AI model called Dessa that's trained "from scratch on nothing but human conversation," and to show off the model, Block shared chats it has had with humans that can occasionally be a little awkward and uncanny. Take this one, for example, shared...

Now Google says it might use your Gmail and Google Photos data to target ads

The Verge AI 50%

Google has updated its privacy policy in a way that could mean you'll start seeing targeted ads based on your personal data if you're using personalized AI features. The update, spotted by Android Authority, adds an exception to its promise about not using your Drive, Gmail, or...

Meta delays new business terms after publisher pushback on AI scraping

The Verge AI 50%

Meta is delaying the enforcement of its new business terms after publishers raised concerns that they could allow the company to scrape news sites for AI training, as reported earlier by Fast Company. In a statement to The Verge, Meta spokesperson Daniel Roberts says the terms...

Canva’s first AI image model plans designs before generating them

The Verge AI 50%

Canva is diving even deeper into AI with the launch of an image generation model that competes directly with those from OpenAI, Microsoft, and Google. The model, called Canva Craft, uses a two-stage architecture that allows it to plan a design before generating an image,...
