Meta and Apple team up to make Muse AI models run better on Macs

The Verge AI +1 source 80%

Meta announced the Muse Spark Open AI model today, claiming that it's the "most capable US open-weight model to date." But the company also says that it's the "the first model in its class" that can "run on your desktop using two Apple M5 Ultra Mac Studios with the latest MLX...

Show HN: Monitoring my 'dumb' boiler with AI

HackerNews 50% HN 2

I have this boiler at a rental property I own. It has 3 smart thermostats (Ecobee). They're great and give the individual tenants zone control, but they only notify me something is wrong when it's already too late as they rely on observing the 'call for heat' and a ongoing...

Replit is no longer working with Anthropic, CEO says

TechCrunch AI 50%

Masad said the decision was made for a number of different reasons, including cost. Replit announced a partnership with OpenAI in August, but there was never any indication that it was no longer with Anthropic.

India becomes the latest country to report rogue AI agent activity

TechCrunch AI 50%

The agents got in through credentials and connection settings left exposed in app configurations, public code repositories, and overly permissive cloud roles.
