Show HN: Is your product AI slop?

HackerNews 50% HN 4

I built this because it was useful for me when building evals/benchmarks, and I decided to put it up for free for others. The goal was quite simple, make it easy to use a lead claude code / codex session in a panel on the side, while allowing every cell to also be a terminal...

Show HN: My first project, an AI-powered financial news analyzer

HackerNews 50% HN 2

I'm 17, and I started NotBot a few months ago to see whether I could turn an idea into a working project. My main interest is economics, not becoming a programmer, but I enjoy experimenting with code. A few months ago, I had the idea of creating a program that would analyze the...

The climate case for AI has not been made

MIT Tech Review 50%

This week, as countries meet in Antalya, Turkey for the United Nations climate conference, one topic likely to dominate the conversation is artificial intelligence. The host has already called on countries to commit to ensuring that AI is designed, powered, and deployed in ways...

The Download: Texas’s fragile AI boom and energy policy shifts

MIT Tech Review 50%

This is today’s edition of The Download, our weekday newsletter that provides a daily dose of what’s going on in the world of technology. Texas was the new epicenter of the AI data center buildout. That might be kaput. Texas is the fastest-growing data center market in the US...
