MODEL RELEASES & RESEARCH — 15 stories

1 **Show HN: Littleguys – Claude Code, Codex and OpenClaw agents in your menu bar**

Amazon says it will stop using NDAs when negotiating data center deals with local governments, following a similar move from Microsoft earlier this year. Secrecy has fueled community backlash against AI infrastructure, with opposition leading to hundreds of proposed and enacted...

2 **Satya Nadella says we should assume all AI models are ‘compromised’**

In a lengthy post on X, Microsoft's CEO laid out his views on the dangers posed by highly advanced AI models and how to confront those risks. Nadella says we can no longer accept a world where AI is treated as a "set of nested black boxes" whose advice and actions we simply...

5 **Show HN: Jevman – AI decision models play Pac-Man**

Openai just launched their decisions endpoint, cloudflare launched clef the other week, and many more jev alternatives are out there. We wanted to put the popular ones to the test and thought Pac-Man is a good benchmark for simple and fast decision making. So we let jev 1.13,...
