100%

HN 113

Hi there :-) New on HN, first time posting. Past year, around December, I started experimenting with making ChatGPT and Claude generate source code in LDraw language. This LDraw is literally an "assembly" language, a low-level programming language that describes how to assemble...

Redefining enterprise intelligence with autonomous AI

MIT Tech Review

+1 source

80%

Enterprise AI is no longer a future ambition. It is in full operational flight. Model capabilities are advancing faster than most organizations can absorb, while the cost of performance continues to fall. Globally, AI investment is set to reach \$2.5 trillion in 2026, up 44% from...

Show HN: Outis - Fight AI spam by sending fake "user unknown" bounce emails

HackerNews

50%

HN 3

Outis fights spam generating and sending a fake "user unknown" bounce for an email you received, so the sender believes your address does not exist. Of course this isn't a novel idea, I created a similar program back in 1998-1999 (actually, with a slightly different purpose),...

CONF

Show HN: What's Agent Doing - a Claude Code UI mod that explains each step

HackerNews 50% HN 2

I built this because with latest coding models, Claude goes into deep-work mode with obscure commands so that I never know anymore what it's up to. This is a mod (a plugin using Claude Code's new function hooks) that draws one line above the prompt: - the current step, using the...

Apple says it's tightening macOS 'Full Disk Access' controls due to new risks from AI agents

TechCrunch AI 50%

Apple says it will add new controls around macOS's Full Disk Access permission, warning that increasingly capable AI agents make broad access to users' files, messages, mail, and browsing history riskier.
