Show HN: Recall - Local project memory for Claude Code

HackerNews 60% HN 111

I built a UI framework named Domphy because I could not learn React although I tried many times. I mean I could not understand React code which is hidden behind multiple layers, especially when some of them use React ecosystem libs. Maybe I am an architect turned developer, so I...

Show HN: Chainstack Self-Hosted, hosting your own blockchain nodes made simple

HackerNews 50% HN 9

Hi HN, Alexey from Chainstack here. We built Chainstack Self-Hosted to package everything we've learned from 8+ years of running blockchain nodes into a single control panel. The goal we're building this product around is to make blockchain infrastructure boring to operate. The...
