

Pipeline

Scrape HackerNews (Show/Top/New), Reddit (r/artificial, r/MachineLearning, r/singularity, r/LocalLLaMA), TechCrunch AI, VentureBeat AI, MIT Tech Review, The Verge AI, Wired AI, ArXiv CS.AI

Filter 40+ AI keyword patterns — LLMs, alignment, safety, research, tooling

Dedup Title-similarity (45% threshold) merges cross-source variants

Score Authenticity = 0.5 base + 0.3 per extra source + diversity + HN score bonuses

Rank Sorted by authenticity. Below 0.25 threshold are dropped.

Authenticity Tiers

- **VERIFIED** 0.80 - 1.00 3+ independent sources including media
- **CONFIRMED** 0.50 - 0.79 2 sources or 1 high-quality media
- **EMERGING** 0.25 - 0.49 Single-source; passes AI keyword filter

## Source Breakdown

| Source          | Articles | Category  |
|-----------------|----------|-----------|
| HackerNews      | 7        | Community |
| TechCrunch AI   | 3        | Media     |
| MIT Tech Review | 1        | Media     |
| The Verge AI    | 1        | Media     |

**Show HN: Helios - what plug-in solar could generate for any address in Britain**

HackerNews

60%

HN 118

Plug-in solar panels (no electrician needed) have just become legal in the UK and will go on sale soon. Helios estimates how much electricity a typical installation could generate at a given address and what that's worth against your tariff. It uses UK government LIDAR data to...

**Show HN: I made a Gemma 4 Mac app that names screenshots with local AI**

HackerNews

50%

HN 6

I made my first macOS utility app that ships with a bundled Gemma 4 model, specifically the Gemma E4B one. It made my app DMG have 5.3 GB in size, but I think it is a small size for the power that this free local model can provide. It runs fine on CPU, but can also run on Apple...

**Show HN: I brought back Airbnb categories**

HackerNews

50%

HN 6

I miss airbnb categories. It was fun and I loved being able to just browse thorough cool listings. I'm not exactly sure why they removed it. Then, a couple weeks ago, they hit me with some A/B test and I had access to a "what" freeform textbox to custom filter results. Now...
