MODEL RELEASES & RESEARCH — 10 stories

1 Show HN: Made an open-source Lego AI generator

Hi there :) New on HN, first time posting. Past year, around December, I started experimenting with making ChatGPT and Claude generate source code in LDraw language. This LDraw is literally an "assembly" language, a low-level programming language that describes how to assemble...

2 An OpenAI safety employee has quit and is sounding the alarm

David Robinson used to write the safety reports that accompanied every major model release at OpenAI. This week, he resigned from his position and is now speaking out in an editorial in The Atlantic. It's understandable if you're feeling a bit cynical about everyone suddenly...

4 Redefining enterprise intelligence with autonomous AI

Enterprise AI is no longer a future ambition. It is in full operational flight. Model capabilities are advancing faster than most organizations can absorb, while the cost of performance continues to fall. Globally, AI investment is set to reach \$2.5 trillion in 2026, up 44% from...

5 Show HN: TurboGPT: train 22KiB transformer in 13s

Hi HN, I wanted to explore how AI models behave when they have their own money. So I gave 4 frontier models their own USDC and had them compete in games of 20 questions. Anyone can watch live. Each round, one model takes a turn picking the secret word, and the others interrogate...

10 An AI couldn’t beat humans at StarCraft, so it decided to cheat

StarSkirmish pits AI-made StarCraft-playing bots against one another, as well as against human-made bots. OpenAI's GPT-6 Astra and Claude Opus 5.5 were essentially tied as the best-performing AI-made bots, but they couldn't top Stardust, the top-rated human-made bot. On Friday,...
