OpenAI valued at $1.25 trillion, as rival Anthropic nears its IPO

The Verge AI +1 source 80%

OpenAI is now valued at $1.25 trillion in a new round of funding that has raised another $11 billion, according to Bloomberg. That would make it one of the world's most valuable companies, not long after raising $122 billion from investors in March at a valuation of $852...

Show HN: Agentic Identity Broker, OAuth Delegation for AI Agents

HackerNews 50% HN 22

Hi HN, I'm Jan. I am co-author of the Agentic Identity Broker (AIB), an MIT-licensed OAuth2 broker in the Zalando Incubator, that lets a user give an AI agent scoped, revocable access to MCP services. The broker solves three major challenges that are especially relevant in...

Show HN: AegisKernel – Zero-trust POSIX runtime for AI agents in <0.016ms

HackerNews 50% HN 12

Hello HN, I'm Nik. I built Infinity for myself because I tend to love to rabbit-hole on various subjects. I usually have 3-4 windows open for ChatGPT desktop + Claude + Ollama. Typically, I'd ask a question, see something interesting in the answer, and then keep expanding on it....

Show HN: Overhead – the planes overhead, painted on an e-ink frame

HackerNews 50% HN 9

Hi HN, I've been fascinated by aviation for some time now. Inspired by Fugleramme, I wanted a framed print of a cluster of aircraft over my house or a busy airport. So I built Overhead. (Photos in the README) The hero photo shows planes departing and landing in Changi,...

CONF

How a Blue Wave midterm might reshape the AI industry

TechCrunch AI 50%

Democrats' historic victories in this week's U.S. midterm elections could also transform the tech industry. The public voted on 41 data center-related ballot measures on Tuesday — in all but one, the majority voted to impose more restrictions on data center development. And even...

Ramp data shows AI spending stalling just as Anthropic nears its IPO

TechCrunch AI 50%

AI usage keeps climbing, but spending has stalled. Price cuts and smarter cost controls among the biggest spenders could challenge investor assumptions about AI hypergrowth.
