Orchestration is the new challenge for CX in the age of AI agents

VentureBeat AI +2 sources

100%

Presented by Tata Communications Enterprises are deploying AI agents, voice AI, and automation across messaging, voice, and digital channels faster than the architecture meant to support it. Most of that deployment has involved attaching conversational AI to legacy systems never...

OpenAI's executive exodus has one big winner

The Verge AI +1 source

80%

Today on Decoder, I'm talking to Verge senior AI reporter Hayden Field about some pure Decoder bait: the seemingly-endless org chart changes at OpenAI, and how all of them seem to consolidate power under cofounder Greg Brockman, the company's president. While Sam Altman is the...

Bill Gates is deeply worried about AI, and he's no longer staying quiet

The Verge AI +1 source

80%

Bill Gates has been reflecting a lot on AI lately, and the process has triggered a stark awakening. Once a staunch AI optimist, the Microsoft cofounder is now deeply pessimistic about what AI means for our collective future. Having been conspicuously quiet on AI issues recently,...
