MODEL RELEASES & RESEARCH — 6 stories

1 Show HN: A decent text-to-image model trained for ~$20K (Apache 2.0 Weights)

My brother and I run a 2-person lab that trains our own generative video models from scratch. The ultimate goal is a set of creative tools that make it easier for anyone to make animation. Video models today are too slow/expensive and lack sufficient controls. Creativity is an...

6 Why a new report on Anthropic automating AI development is alarming researchers

Anthropic is using AI to build more powerful AI. And it appears to be working remarkably well, with the company's models improving roughly twice as quickly as a year ago, with little indication of slowing down. That's according to a new report published Thursday by the AI safety...

STRATEGIC & BUSINESS — 8 stories

7 OpenAI valued at $1.25 trillion, as rival Anthropic nears its IPO

OpenAI is now valued at $1.25 trillion in a new round of funding that has raised another $11 billion, according to Bloomberg. That would make it one of the world's most valuable companies, not long after raising $122 billion from investors in March at a valuation of $852...

8 Ramp data shows AI spending stalling just as Anthropic nears its IPO

AI usage keeps climbing, but spending has stalled. Price cuts and smarter cost controls among the biggest spenders could challenge investor assumptions about AI hypergrowth.
