Show HN: I Turned DOOM into a Transformer

HackerNews 50% HN 94

Instead of trying to run DOOM on things, I have instead decided to use DOOM (many, many, many doom games actually) to create a transformer. For a lot of the math required I essentially had to use DOOM game mechanics and voodoo dolls (DOOM is turing complete btw) and exchange...

CONF

Show HN: Pretty Git Tree – Your Git history as generative art

HackerNews 50% HN 3

I've spent months building something complex and (so far) invisible. I know that the number of commits, branches, merges etc. aren't proof of progress, but what I needed was a way to represent the amount of effort I'd put in that wasn't "proximity to burnout". Pretty-git-tree...

Wikipedia's operator says a bad AI copyright ruling could threaten the open web

The Verge AI 50%

The Wikimedia Foundation is staking out a middle ground in a group of landmark AI copyright cases, pushing courts to legally protect large language models (LLMs) training on copyrighted work - but not chatbots regurgitating that work to users. An overly black-and-white ruling,...
