

Pipeline

Scrape HackerNews (Show/Top/New), Reddit (r/artificial, r/MachineLearning, r/singularity, r/LocalLLaMA), TechCrunch AI, VentureBeat AI, MIT Tech Review, The Verge AI, Wired AI, ArXiv CS.AI

Filter 40+ AI keyword patterns — LLMs, alignment, safety, research, tooling

Dedup Title-similarity (45% threshold) merges cross-source variants

Score Authenticity = 0.5 base + 0.3 per extra source + diversity + HN score bonuses

Rank Sorted by authenticity. Below 0.25 threshold are dropped.

Authenticity Tiers

- **VERIFIED** 0.80 - 1.00 3+ independent sources including media
- **CONFIRMED** 0.50 - 0.79 2 sources or 1 high-quality media
- **EMERGING** 0.25 - 0.49 Single-source; passes AI keyword filter

## Source Breakdown

| Source        | Articles | Category  |
|---------------|----------|-----------|
| HackerNews    | 6        | Community |
| TechCrunch AI | 2        | Media     |
| The Verge AI  | 1        | Media     |

**Show HN: ThoughtDAG - An editable context graph for LLM conversations**

HackerNews 60% HN 114

Hi HN! Would love any thoughts on this, we built Burla to enable anyone, even total beginners to scale Python to thousands of computers in their cloud with zero hassle. In a world of coding agents, this means something different than it used to, specifically that Burla requires...

CONF

**Show HN: Mocktail - Free, open-source mock API server with a built-in dashboard**

HackerNews 50% HN 20

Hi HN, I built the first version of Mocktail years ago. I recently came back to the project, and after a pretty substantial rebuild, v4 is now out. Mocktail is a free and open-source, self-hosted mock API server with a built-in dashboard and database, packaged as a single ~25 MB...

**Show HN: I evaluated file, vector, graph and RL based memory frameworks**

HackerNews 50% HN 13

Artifex is a machine-first, headless CLI runtime built for autonomous coding agents to author, validate, and render media node graphs locally. The agent talks to Artifex through a structured CLI interface. Workflows are DAGs, and each node is a plugin that can implement its own...

**Have a laugh at AI's expense by roleplaying as a chatbot**

The Verge AI 50%

Your AI Slop Bores Me is brilliant in its simplicity. There are two tabs: human and LARP as an AI. On one side you enter a request. On the other, you submit an answer. But the important thing is that there's a human on both sides of the equation. Prompts can request a response...
