This AI startup will clean your home for free to train future robots

The Verge AI +1 source

80%

AI training startup Shift wants to clean your home for free. The catch - because, despite what its website says, there's always a catch - is that it will record cleaners as they scrub, vacuum, dust, tidy, and wash, and use that footage to train robots. Shift announced the...

Show HN: Tiny-vLLM - high performance LLM inference engine in C++ and CUDA

HackerNews 60% HN 126

I've been experimenting since 2019 with ways to minimize RAM usage for tiny MLP inference on microcontrollers. [0] This project is the result of that exploration: a fully static-allocation approach to MLP inference in ANSI C, using a simple 2-slot ring buffer to keep memory...

Coders are refusing to work without AI — and that could come back to bite them

TechCrunch AI 50%

While AI is helping coders produce code faster, it may not be producing better code, researchers warn. And that could cause problems down the road for them.

What happens when companies become too AI-pilled?

TechCrunch AI 50%

The people deciding that AI can replace your job are also the ones least likely to understand what your job truly involves, according to Box founder Aaron Levie, who pointed to this as an example of “AI psychosis.” Indeed, ClickUp recently cut 22% of its workforce for AI agents,...
